Contents Index, Volume 5

Volume 5, Nos. 1 & 2, February-April 1989, pages 1-120

BASIC MECHANISMS IN CONTRACTILITY OF VASCULAR SMOOTH MUSCLE AND ROLE OF DIVALENT CATIONS

Role of Calcium in the Cardiac and Vascular Smooth Muscle Contraction—Overview 3
Shoji Shibata

Role of Protein Phosphorylation in Ca^{2+} Regulated Intracellular Messenger Systems 13
H. Hidaka, M. Hagiwara, T. Ishikawa, and M. Saitoh

Reception-Mediated Ca^{2+} Entry in Blood Vessels 31
R. Kelly Hester

Effects of Inorganic and Organic Promoters and Inhibitors of Calcium Influx on Stretch-induced Myogenic Tone of Vascular Tissues 55
K. Nakayama, S. Yamada, and Y. Tanaka

Magnesium as a Modifier of Smooth Muscle Contractility 77
Hideaki Karaki

Divalent Cation Regulation of Endothelial-Dependent Relaxation in Coronary Blood Vessels 99
David D. Ku

Volume 5, Nos. 3-5, June-October 1989, pages 121-376

SYMPOSIUM ON ISCHEMIA-REPERFUSION IN SKELETAL MUSCLE
Toronto, September 10, 1989

Dedication 123

Preface 124

The Reperfusion Syndrome 127
F.W. Blaisdell

Mechanisms of Cellular Injury: Potential Sources of Oxygen Free Radicals in Ischemia/Reperfusion 143
W. Inauen, M. Suzuki, and D.N. Granger

Contents Index, Volume 5

Dedication 123

Preface 124

The Reperfusion Syndrome 127
F.W. Blaisdell

Mechanisms of Cellular Injury: Potential Sources of Oxygen Free Radicals in Ischemia/Reperfusion 143
W. Inauen, M. Suzuki, and D.N. Granger

Contents Index 537

Free Radical Mediated Damage in Skeletal Muscle 157
T. Lindsay, A. Romaschin, and P.M. Walker

The Effect of Ischemia-Reperfusion Derived Oxygen Free Radicals on Skeletal Muscle Calcium Metabolism 171
J. L. Cronenwett, K.R. Lee, M. Shlafer, and G.B. Zelenock

The Impact of Energy Depletion on Skeletal Muscle 189
P.M. Walker, T. Lindsay, S. Liauw, and A. Romaschin

Participation of the Complement System in Ischemia/ Reperfusion Injury 207
B. Rubin, A. Smith, A. Romaschin, and P.M. Walker

Effects of Ischemia-Reperfusion Injury on Microvascular Permeability in Skeletal Muscle 223
W.N. Durán and P.K. Dillon

Ischemia-Reperfusion and Cell Membrane Dysfunction 241
M. Perry and G. Fantini

Role of Heparin in Reducing Skeletal Muscle Infarction in Ischemia-Reperfusion 259
R.W. Hobson II, R. Neville, B. Watanabe, J. Canady, J.G. Wright, and M. Belkin

Mechanisms of Postischemic Vascular Dysfunction in Skeletal Muscle: Implications for Therapeutic Intervention 277
D.L. Carden and R.J. Korthuis

The Role of Fibrinolysis during Reperfusion of Ischemic Skeletal Muscle 299
W.J. Quiñones-Baldrich

Hypothermia and Controlled Reperfusion: Two Non-Pharmacologic Methods Which Diminish Ischemia-Reperfusion Injury in Skeletal Muscle 315
J.G. Wright, M. Belkin, and R.W. Hobson II

Prostaglandins in the Management of Cardiac and Skeletal Muscle Ischemia 335
M. Belkin, J. Blebea, J.G. Wright, and R.W. Hobson II

Contractile and Metabolic Function Following an Ischemia-Reperfusion Injury in Skeletal Muscle: Influence of Oxygen Free Radical Scavengers 351
J.W. Long, J.L. Laster, R.P. Stevens, W.P. Silver, and D. Silver

Summary of Round Table Discussions 365

Microcirc. Endoth. Lymphatics, 1989, vol. 5, December

Volume 5, No. 6, December 1989, pages 371-538

ORIGINAL CONTRIBUTIONS

A Study of Platelet Fibronectin Immunofluorescence in Peripheral Vascular Disease and Diabetes Mellitus 373
O.S. Ejim, M.A. Barradas, D.P. Mikhailidis, L.W. Poulter, A. Coumar and P. Dandona

Effect of Carbon Dioxide on the Utilization of Brain Capillary Reserve and Flow 391
J. Frankel, J. Dribben, I. Kissen, T. Gerlock and H.R. Weiss

Separate Effects of Gravity and Venous Pressure on Regional and Capillary Blood Flows in the Human Finger 417
D.R. Richardson and S. Shepherd

Chicago Sky Blue and a Helium Neon Laser Abolish Endothelium Dependent Relaxation In Vivo in the Microcirculation 435
H. Nishimura, G.H. Nelson, W.I. Rosenblum

Concentration Dependent Effects of Calcium Blockade on Vessel Diameter and Microvascular Macromolecular Clearance 441
J. Paul and W.N. Duran

Microvascular Perfusion during Atrial Pacing in Renal Hypertension Induced Cardiac Hypertrophy 457
C.M. Cimini and H.R. Weiss

Immunocytochemical Localization of Glyceraldehyde-3-Phosphate Dehydrogenase in Cultured Endothelial and Smooth Muscle Cells 485
P. Hodor and C. Heltianu

Microvascular Effects of Endothelin-1 505
E.J. Messina, J. Rodenburg and G. Kaley

Flow Velocity-Dependent Regulation of Microvascular Resistance In Vivo 519
A. Koller and G. Kaley
